MERITIS, Sophia Antipolis (2021 – 2022)

Agile Practice Director

Member of the group Board of Directors and directly reporting to the CEO of the company, I have several responsibilities:

- **Agile Transformation Leader**
- Director of the **Agile Offer**
- Agile **Competencies Center** manager: 10 coaches, 50 SM and PO
- Agile **Community of Practices** coordinator: 150+ persons

GSF, Sophia Antipolis (2019 – 2021)

Agile Transformation Leader

Full Agile Transformation of the IT organization and all departments to deploy agility with a team of coaches that I was coordinating and managing.

- **Transformation of the IT organization** (150+ persons) from a technical to a product model based on featured product teams and transversal support tribes, leveraging SAFe framework and Spotify model
- **Enterprise Coach** for the IT organization management
- **Lead Coach of the team of Coaches**, Scrum Masters and Agile PMO
- Setup of the training plan for the entire IT department
- Recruitment plan: applicative and UX/UI architects, enterprise architect, RSSI, Product Owner, Scrum Master
- Deployment of a **Lean Agile Budget and Portfolio Management**
- Setup of a remote **Release/PI Planning** adapted to client's context but based on **SAFe and LeSS frameworks**
- Creation of several **communities** to share knowledge and best practices
- Deployment of a **Continuous Integration** mixing ITIL release, DevOps and Agile methodology

ASTEK, Sophia Antipolis (2017 – 2019)

Agile IT Director

As a member of the group Board of Directors and directly reporting to the group Director of Operations in Paris, I was managing the whole South-East region in France in duo with the Director of Operations. In addition, I was overseeing the deployment of Agility within clients' IT departments leveraging SAFe and Scrum/Kanban methodologies.

- **Delivery Manager:**
 - **Global management** of the **Agile Delivery/Service Center for Amadeus** within Astek premise
 - **Global management** of all the **ATG (Assistance Technique Groupée) or TMA (Tierce Maintenance Applicative)** within Air France premises
- **In charge of a budget of around 17 million Euros and 37500 man-days**
- **Direct management of 4 Project Directors/Senior Project Managers**, who manage 20 Project Managers/Scrum Masters and their teams (**up to 170+ persons**)
- **Management of staff career, evolution, salaries, contract with HR team.**
- Massification and externalization of Time & Materials resources working in all clients' premises into Astek Delivery/Service center premise in Agile methodologies
- **Coaching, audit and consultancy to deploy Agility@Scale** within whole IT departments and development teams
- **Setup of Agile contracts:**
 - Length of 3 to 6 sprints maximum and 2-3 weeks each
 - Commitment based on story points planned/committed to be delivered by Agile developments teams during SAFe Program Increment (PI) Planning with the clients' teams
 - Billing of story points delivered following the Definition Of Done (DoD) agreed with both parties, including and a system of bonus/malus according to number of story points delivered
- **Agile Coach:** deployment of Agile methodologies within development but also management/commercials teams

AIR FRANCE, Sophia Antipolis (2018 – 2019)

SAFe Program Consultant (SPC) / Agile Coach

Coaching and deployment of an Agile Release Plane (SAFe ART).

- **Transformation** of one big development team working in Waterfall into two Scrum teams in **Agile SAFe methodology**
- **Coaching** a two development teams
- **Participation and facilitation** of the **PI Planning**
- Advice and **coaching to the RTE** of the program

AMADEUS, Sophia Antipolis (2017 – 2019)

Senior Project Director

Direct and close management of a complex and strategic Amadeus “Delivery Based Services”.

- **Direct management of a Project Director and Project Managers/Scrum Masters and their teams (up to 50+ persons)**
- Close follow-up and monitoring to **improve customer satisfaction** as well as **margin**
- **Staffing restructuring, training plans, key recruitments**
- **Management methodologies:**
 - Care Management (*Management de bienveillance*): Understand and create caring and compassionate organizations.
 - Great Place To Work: Motivate staff and unify them as one team, by deploying team building activities, team self-assessment, open discussion sessions, removing irritant factors, flexible and home working....
- **Reporting of high level KPIs to Amadeus CIOs** during quarterly **Strategic Steering Committees**

MUREX, Paris (2017)

SAFe Release Train Engineer (RTE)

Direct report to the CIO, I was managing large and complex development multi-year programs in a truly Agile environment, heavily leveraging the Scaled Agile Framework (SAFe) to drive Agile delivery at scale, balancing Program Management, Agile Coaching and transformational leadership with the objective to support and manage Agile teams build and deliver solutions and value more efficiently.

- **Managing up to 15 Agile teams (120+ persons)**
- **Program Scrum Master / Release Train Engineer (RTE)** of the Agile Release Train (ART):
